Knowledge of systems and OS Knowledge of code versioning tools such as GIT.

Candidate Performance Snapshot

This section provides the candidate's scores in the test. It also indicates the candidate's strengths and areas of improvement within each test. The percentile score of the candidate is a relative score and it provides an estimate of the rank of the candidate among peers in that particular test. For instance, a percentile of 65 implies that the candidate has a higher score than that of 65% of the total test-takers.

The color code for the subsection scores are as below.

- High - The candidate has scored more than 67% marks in this subsection.
- Mid - The candidate has scored between 33% marks and 67% marks in this subsection.
- Low - The candidate has scored less than 33% marks in this subsection.
- The candidate has scored 0% marks in this subsection.

Automata

Score	7/100	**This module has no subsections**
Percentile	1	

JavaScript

Score	567/900	
Percentile	93	

JavaScript Basics   Object Oriented Programming   JavaScript Object Model

HTML/CSS

Score	473/900	
Percentile	74	

HTML Elements and Structure   Tables, Multimedia and Forms   CSS
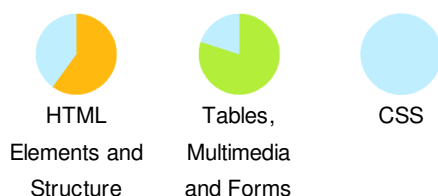

Oracle DBA (Entry Level)

Score	300/900
Percentile	34

Architecture and Administration

Backup and Recovery

Oracle Scheduler and Networking
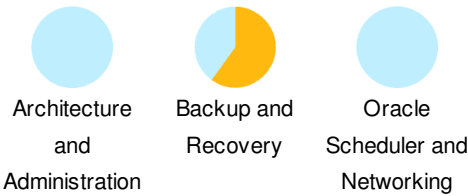

Hirability Status – Full Stack Developer : Java

☐ **Hireable**

🟥 **Rejected**
